INNOVATIVE TEXTILE SOLUTIONS

Standard Fiber Pet

Elements of Sleep™

Our bedding technologies have been divided into five Elements of Sleep categories – Wellness, Comfort, Protection, Design and Sustainability. We do more than manufacture innovative bedding products. We invent them.

Wellness

Our smart fabrics incorporate organic cottons, vegetable dyes, allergen barriers, odor reducing and anti-static technologies. If you sleep better, you feel better.

Protection

Protect your investment with our unique barrier constructions and functional fabrics

Design

Our new innovative designs will bring color, texture and function to your bedding products.

Comfort

Providing the best night's sleep through temperature and moisture management, airflow and support.

Sustainability

Our sustainable collection of natural fibers and yarns from post-consumer recycled materials are better for the environment and meet upcoming retailer requirements.

Wellness

Wellness

ALLERGEN RELIEF – Based on encapsulated probiotics, allergen relief helps to neutralize pet dander, dust mites, and pollen allergens in textiles throughout the home.

ANTIMICROBIAL – A non-migrating antimicrobial technology designed to eliminate bacteria that causes fabric odors by attracting and neutralizing them.

ODOR CONTROL – Our odor neutralizing technology absorbs 70% of household odors.

ANTISTATIC textile technology neutralizes static electricity by adding moisture retaining technology into textiles or with conductive yarns.

MICRO-ENCAPSULATION – This technology can boost textiles with a range of supplemental ingredients, including natural essential oil scents, vitamins, and supplements.
