

**STANDARD FIBER**

INNOVATIVE TEXTILE SOLUTIONS

# Standard Fiber Pet

# Elements of Sleep™

Our bedding technologies have been divided into five Elements of Sleep categories – Wellness, Comfort, Protection, Design and Sustainability. We do more than manufacture innovative bedding products. We invent them.

## Wellness

Our smart fabrics incorporate organic cottons, vegetable dyes, allergen barriers, odor reducing and anti-static technologies. If you sleep better, you feel better.

## Protection

Protect your investment with our unique barrier constructions and functional fabrics

## Design

Our new innovative designs will bring color, texture and function to your bedding products.

## Comfort

Providing the best night's sleep through temperature and moisture management, airflow and support.

## Sustainability

Our sustainable collection of natural fibers and yarns from post-consumer recycled materials are better for the environment and meet upcoming retailer requirements.

Comfort

# Comfort

**COOLING PE AND COOLING NYLON** – A thermal conductive technology that pulls heat away from the body and creates an immediate cooling sensation.

**PCM COOLING AND MOISTURE-WICKING** – Absorbs and releases thermal energy to maintain a regulated temperature with moisture-wicking for a longer-lasting effect.

**TENCEL AND BAMBOO RAYON BLENDS** – Cellulosic fiber from plants that has a unique hand feel. Provides natural comfort to the touch.

**COOLFLEX SUPERFINE COOLING JERSEY** – Knitted with super fine gauge, providing a buttery soft touch. The Mica-infused yarn creates an immediate cooling sensation.
